The Fault in Our Stars – Quotes and Journal Entries

Chapter 1:

p.7 “Mom: “Hazel, you deserve a life.”

This quote is incredibly ironic for the fact that Hazel is dying. She does deserve a life just as anyone else does. It’s aggravating because cancer is taking it away from her. What mom means is that she deserves to live life, not just survive the rest of it. I believe that there is a difference between being alive and living. Even though Hazel is dying, she deserves to live the rest of her life doing things instead of waiting around for the inevitable.
