

EAE3U – The Editorial

Oral Presentation

Your task is to present the contents of an editorial and express your opinion on the matter.

- Find a reliable website in which you can find a proper editorial.
- Read more than one editorial and pick one that you can easily discuss.
- Print it out, summarize it, and make sure you fully understand what you have read.
- While presenting:
 - Tell us the title of the article and from which news website you found it.
 - Summarize the main points (what is the context, the proposition, the arguments and the proof?).
 - Explain to the class if you agree or disagree with the editor.
 - Formulate a question that will incite the students to share their own opinion about the subject presented.
 - You may pick two students to answer and you must reply accordingly.

- ✓ The proposed question to the audience and your replies
- ✓ Your tone of voice
- ✓ The vocabulary used
- ✓ Acknowledgement of the audience (eye contact and interaction)
- ✓ Your stance (the way you present yourself)
